3. Furnishings of the Sanctuary
4. The Priesthood Before The Cross
5. The Sanctuary System of Sacrifices
6. Annual Feasts and ceremonial Sabbaths
7. The Day of Atonement.
8. Christ Our Sacrifice
9. The Transition from the Earthly Sanctuary to the Heavenly
10. The Priesthood of Christ
11. Time of Cleansing of the Heavenly Sanctuary
12. The Investitutive Judgement
13. The Close of Probation and the Removal of Sin. Read Acts 7:37-39. The first church in the wilderness.

During the Easter season the eyes of Christians are focused upon Calgotha, The Cross, and the plan of salvation revealed in type through the sacrificial services. Jesus Christ was the foundation of the whole Jewish economy. He established the sacrificial offerings which typified himself. The whole system of types and symbols was one compacted prophecy of the gospel, a presentation of Christianity" Review and Herald, March 21, 1893. Official Organ of the Seventh-Day Adventist Church —See St. John 1:29, 36, Matt 27:50-51.

"In the future, deception of every kind is to arise, and we want solid ground for our feet. We want solid pillars for the building not one pin should be removed from that which the Lord has established. The enemy will bring in false theories such as the doctrine that there is no sanctuary. This is one of the points which will be departing from the faith. Review and Herald, May 25, 1905.

God said to Moses concerning the children of Israel: "Let them make me a Sanctuary: that I may dwell among them." Exodus 25:8,9,40; 26:30. Dan. 8:14 William E. Carpenter-Pastor.

Robert E. Lee Seen On TV

Robert E. Lee was very much in evidence on Friday, April 12, on the TV show, Truth or Consequences. Emcee Bob Barker, as usual, had the contestants involved in funny stunts. He said to Robert E. Lee (who did not indicate what relationship there is between him and the famous General): "This is Appomattox all over again. You're surrounded."

TOTAL PERFORMANCE:

FORD GALAXIE 500/XL SPORTS HARDTOP
YOU'LL KNOW WHY SHE DOESN'T FEEL THE BUMPS...WHEN YOU TEST-DRIVE FORD'S NEW $10,000,000 RIDE

The 1963 Ford gives you a ride every bit as smooth as cars costing hundreds more, and for two reasons: a revolutionary new suspension system . . . and added road-hugging weight.

It took ten million dollars to develop the new Ford ride. We designed a revolutionary new suspension system for the '63 Ford. Where ordinary suspensions move only up and down to absorb road shock, the Ford suspension moves fore and aft as well. In this double-action suspension system, coil springs up front and leaf springs in the rear combine to give you firmness in cornering and a special smoothness over the road.

We added weight, strength and stability. The new Ford is now actually hundreds of pounds *more* car than any other car in its class. This remarkable weight advantage is in the suspension, frame, and body. And, as you know, this added weight means a more stable ride.

But a solid, road-smoothing ride is only part of Ford's total performance story for 1963. Look how Ford swept the field this year in the grueling Daytona, Riverside and Atlanta 500's and in the demanding Pure Oil Performance Trials. Only a car with *total performance*—the best combination of strength, balance, precision control, braking power and road-clinging suspension—could roll up so many wins.

Before you buy any new car, test-drive a Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Make this important discovery—**if it's built by Ford, it's built for performance . . . total performance.**
